

Faculty Advisor Information 2020

- **Academic Advisors** complete and update student Ed Plans.
- **Faculty Advisors** check student Ed Plans and provide additional information and support about their programs.
- **Students** should know the name of and establish a relationship with both Advisors.

All students should have a current Ed Plan established and maintained by an Academic Advisor in their [MyMaricopa](#). Whenever you change your mind about any degrees or certificates you plan to complete, you must have your Ed plan reviewed to ensure you are following the optimal path for your modified intentions.

- If you know your major or field of interest, **meet with an Academic Advisor:** [Academic Advisement](#)

Students should meet with their **Faculty Advisor** once they have a complete Ed Plan to have it checked and establish a relationship with the faculty in your program. The **Faculty Advisor** is a content specialist and provides advisement in their area of expertise which includes but is not limited to:

- Classes required and course sequences related to your major
- Detailed questions about the curriculum
- Career information related to your major

You can reach your Faculty Advisor either by phone or email listed on the second page of this Directory.
